MISSION BELL GARDENS

2778 WEST 5600 SOUTH

ROY, UTAH

One mile west of the American Food Store

Dear Friends:

YOU ARE CORDIALLY invited to visit Mission Bell Gardens. Our iris collection consists of approximately 600 named varieties, the majority of which are of quite recent vintage. For additional pleasure, we are growing more than 100 guest iris and about 3,000 seedlings. Peak bloom is usually during the last week of May.

This means that our bloom should be just about right immediately following the AIS Convention in Portland, May 18-21. Convention Visitors: on your way home, plan to spend a day or so visiting Utah gardens. If time permits, you might enjoy attending our Regional Meeting, to be held May 28, in Roy. For details, write to any Utah AIS member.

We wish to take this opportunity to thank our customers for their splendid orders. Special thanks for your notes of appreciation and satisfaction.

It is our sincere desire that your garden will display great beauty this season and that each variety will meet with your expectations.

Melba and Jim Hamblen

JOIN THE AMERICAN IRIS SOCIETY

For additional iris pleasure, we urge you to join the American Iris Society. You will receive four valuable, illustrated Bulletins each year. The Bulletins contain information on iris culture. New varieties are described and their performance in various areas is commented upon. Through the "Robins" you will make many new friends. Dues are only \$5.00, family membership \$6.00.

You may mail your check or money order to The American Iris Society, 2237 Tower Grove Blvd., St. Louis 10, Missouri. New members—make your check to the American Iris Society and include it with your order. We will send it in for you and will allow you to select a \$5.00 iris as a premium.

OUR INTRODUCTIONS FOR 1960

BRIGHT FORECAST (Hamblen) Midseason to Late. 30 inches. (Fashion Show) X (Sib to Glittering Amber) A blazing, golden-yellow self with a heavy beard of tangerine-orange. Perfectly balanced with broad flaring falls and closed standards. The entire flower is delightfully ruffled and has just a touch of lace. Superb substance, strong well-branched stalks. No. H5-20. H.C. 1959Net \$20.00

FAIR LUZON (Hamblen) Midseason to Late. 30 inches (Cherie x Radiation) X (June Meredith) A clean, bright pink iris with a wide cerise beard. Broad petals, ruffled and laced. Standards are cupped, falls are horizontally flared. Exceptionally heavy substance and strong stalks with well-placed flowers. No. H4-4D. Very limited stock. H.C. 1957, 1959.Net \$25.00

GARDEN PARTY (Hamblen) Early to Midseason. 34 inches. (Sib to Valimar: (Helen McGregor x Radiation) x (Palomino)) X ((Pink Tower x Radiation) x (Pink Enchantment)) Very large, very wide, flaring apricot-pink self with matching beard. Pronounced texture veining of deeper apricot-pink gives added beauty. Strong stalks, excellent substance. Limited stock. No. H6-55. H.C. 1959. Net \$25.00

RUFFLED PINAFORE (Hamblen) Midseason to Late. 28 inches. (Silver Chalice) X (Violet Grace) Bright Gentian blue that shades to silvery white at the haft. Extremely wide petals with beautiful ruffling. Standards are domed and closed, falls semi-flared. Substance is remarkable. Blossoms are well-placed on strong stems. A polific bloomer. No. H4-50B. H.C. 1959.Net \$20.00

BORDER IRIS

FAIRY JEWELS (Hamblen) Early to Late. 24 inches. (Sib to Valimar) X (Sib to Glittering Amber) A charming little iris from tall-bearded breeding. Sparkling white with hafts and beard of gold and with a fine gold edge extending around each lacy petal. The fall petals have a horizontal flare; the standards are held in a firm, upright position, showing the laced style arms. Limited stock. No. H5-40K. H. C. 1959.Net \$15.00

TEENAGE (Hamblen) Early to Late. 26 inches. (Ruffled Organdy) X (Rosedale) A pert, little character with falls that have a horizontal flare and standards that open just enough to show off the golden style crests. The entire flower is beautifully ruffled. The color is a blend of bright cinnamon and rose with hafts and beard of apricot-orange. Beautiful branching, many buds. No. H5-1A. H.C. 1959.Net \$15.00

WE ARE HAPPY TO CO-LIST PART OF TELL'S 1960 INTRODUCTIONS

Many are one-year plants, but have made good growth and give promise of bloom.
(Descriptions by Tell.)

DELIGHTFUL (F. Harold Alexander, High Point, N. C.) Midseason—Very late. 38 in. (Sky Ranger X New Snow) Violet iris have been among the leaders in popularity and awards and **DELIGHTFUL** is an excellent new addition to this color class and one that will rank high for many years to come. According to color charts it is Aster Violet. The flowers are large, wide, have excellent substance and are nicely placed on well branched, heavy stalks. Typical Snow-Flurry-ruffling adds to the charm of this grand flower. Wonderful breeding potentials in this beauty.Net \$20.00

DOCTOR K (Muhlestein) Midseason-Late. 30 in. (Pretty Quadroon x Bill Brown) X ((Arab Chief x Stag at Eve) x Glistening Copper)) Doctor Kleinsorge has done more to advance the work in BROWN iris than any other hybridizer, and since this lively, smooth, golden-brown self seemed to culminate my efforts in this direction, I was pleased when permission was granted by Dr. Kleinsorge to name this iris in his honor. It is my feeling that this flower has the qualities which this great man exemplifies. **DOCTOR K** is not as large as some of the browns we have, but its shape, substance and form are excellent and the flower has a certain charm and personality that set it apart. There is a bit of ruffling at the haft and the color holds in the heat of the late season for the life of the flower. Easy parent both ways. Few judges have seen it because of its season of bloom. No. 57-155. Limited stock.Net \$35.00

GOLDEN SPICE (Muhlestein) Midseason-Late. 36 in. (Rodeo x Firedance) X (Sass' 46-165) The finest yellow-ground plicata I have produced. The yellow is clear, the ginger-brown markings on the falls are nicely applied, and the flaring, tailored falls give the flower a jaunty appearance. Has a fine stalk and branching with many buds. No. 57-42A.Net \$25.00

LADY OF NEPAL (Muhlestein) Early-Midseason. 40 in. (McLeod's Snow Flurry x Luna) X (Asoka of Nepal) Wide, rounded flowers with flaring falls. Standards cream, falls yellow with buff hints as it opens but this pales to yellow as the flower ages. The edges of the falls are cream. This actually gives an Amoena effect in the garden. Occasionally has pollen, and is rather an easy pod parent—especially when crossed with some of the fertile C. G. White Hybrids. No. 59-9.Net \$20.00

MAIN EVENT (Les Peterson, Salt Lake City, Utah) Midseason. 35 in. (Char-maize) X (Sdlg. from two sister sdlgs. from ((Happy Days x Depute Nomblot) x (Bryce Canyon x Moontide)) Blended red of Indian Lake and Garnet Lake that is almost a complete self save for the dull yellow beard. A duplicate of its pod-parent, Char-Maize, for size, shape and substance. Has slight reticulations at the haft which should easily be cleared up in the next generation if crossed to Privateer, Forward March, etc. Because of its Kleinsorge lines, Dominion and Snow Flurry blood I feel it holds unlimited possibilities for improvements in modern reds, browns and coppers as well as fine yellows. Awarded an Exhibition Certificate in 1957. The heavy Snow-Flurry-type stalk with better branching are added assets.Net \$25.00

ROYAL CANADIAN (Rev. A. K. Edmison, Brighton, Ont., Canada) Midseason. 40 in. (Black Hills) X (Katherine Fay x Great Lakes) Royal Blue or Ultramarine violet self with a dark blue harmonizing beard. Gorgeous, flaring blooms with domed standards make this a flower approaching perfection. The branching is excellent. All in all, Royal Canadian is an iris any hybridizer would be happy to have produced, and Rev. Edmison must be justly proud. This should be a great breeder for blacks, blues, violets and whites. Will also be useful for breeding blue and black beards in many colors. I should like to see this crossed with Allegiance and Mariott. No. 58-55.Net \$35.00

SMOKE MIST (George Mayberry, Provo, Utah) Midseason-Late. 36 in. (Sib to Utah Cream x Yellow Tower) x (Salmon Shell x Pink Fulfillment)) X (Mary Randall) With such a pedigree this had to be a wonderful cross. Smoke Mist has a charm and personality all its own with its blended colorings of soft pinkish-apricot-salmon lightly overlaid with mauve. A great breeding potential. No. M55-21G.
.....Net \$25.00

SULTAN'S MUSIC (Ted R. Elstrom, R. L, Concordia, Kans.) Early-Midseason. 36 in. Sultan's Robe X No. 50-20) Unusual, perhaps, as the music to be heard in a Sultan's private chambers. This gorgeous, smoky violet blend has a blue blaze in the very round, wide and perfectly horizontally flaring falls. Ted Elstrom has been hybridizing many years and this is the first seedling to be named and will be received with praise by those who like quality and the unusual. Already this is proving a splendid parent and has produced some white offspring. I should like to see this crossed with Jungle Bird, Smoke Mist, Gracelle, Laced Armour, Royal Ruby, Bang and Stormy Skies. No. 55-3.Net \$25.00

VENETIAN PINK (Margaret Albright) Early-Midseason. 34 in. (Gracelle X Pink Enchantment) According to the Wilson color chart this iris is Venetian Pink. The color is close to that of Native Dancer, though deeper and more a self, the beard is still deeper and in fine harmony with this wide, flaring, nicely shaped flower. Introduced as a breeder, for it is proving an excellent parent for great pinks and other fascinating and unusual colors. This should be a grand mate for Jan Elizabeth, Valimar, Glittering Amber, Anembo, Lula Margurite or Mayberry's new Smoke Mist. Has a tendency to bloom too heavily—especially in Southern Calif. Only a few to release.Net \$15.00

WONDERFUL WHITE (Muhlestein) Midseason-Late. 40 in. (Swan Ballet X Star Cross'd) Evidently most of the good genes combined to produce this gorgeous pure white with a white beard. The heavy magnolia-like substance has great lasting qualities even in the heat of the late season. Domed standards and wide flaring falls slightly more tailored than its Dykes Medal winning mother. Heavy stalk with good branching that displays three and four blooms to perfection. Unfortunately, WONDERFUL WHITE is slow to establish and increase and does not always bloom the first year after being transplanted, but well worth waiting for. Stock is limited and only a few will be released this season. No. 57-144.
.....Net \$35.00

BORDER IRIS

BORDER GOLD (Muhlestein) Late. 20 in. (Gold Torch X Solid Gold) Rich, deep clean yellow that for sheer brilliance has no counterpart among my new seedlings. Will be useful for the front of the border in the late garden. Only four to five buds. No. 697.Net \$5.00

LADY KAY (Muhlestein) Early-Midseason. 18 in. (Spinkstown S6 S: Snow Flurry x Cherie) X (Gracelle) Small flowered orchid self with perfectly round and horizontally flaring, daintily laced falls. Lady K is named for Kay (Mrs. Jack O.) Riley of Denver, Colorado. I feel certain Kay shall never be ashamed of her name-sake for it is quality and charm all the way through. There is no other color in the flower save the lighter beard. With this breeding, should produce great seedlings. Has no pollen, but will set seed. H.C. 1959. No. 56-9.Net \$25.00

SAUCY PEACH (Muhlestein) Midseason - Late. 20 in. (Golden Flash X Yellow Dresden) Small-flowered, jaunty peach-pink self. This should be great to cross with Cockel Shell, Jan Elizabeth, Rosedale, etc. for other fine border iris. No. 56-33B.Net \$15.00

AIS AWARD

H. C. (High Commendation) is an award to an iris seedling, either under number or name, not introduced at the time of judging.

H. M. (Honorable Mention) is an award to an iris which has been officially registered and introduced.

A. M. (Award of Merit) is an award to an iris that has won an Honorable Mention not less than two or more than five years prior to the current season. There are twelve A. M.'s awarded each year.

D. M. (Dykes Medal) is the highest award an iris may receive. Only one D. M. is awarded each year and in order to be eligible, an iris must have first won an A. M. during the previous four years.

TERMS OF SALE

Cash with order, check, draft or money order. No orders under \$5.00.

Due to Parcel Post rate increase scheduled for this year, and to partially offset other constantly increasing costs, hereafter we will charge 35c on all orders as a "Handling and Packing" fee.

Local Customers: 25% of sale will hold order until digging time.

SHIPPING DATES

Iris will be shipped from June 20th to October 1st. We have found that early planting produces more bloom and larger plants.

Orders will be filled in rotation, however, we will comply with requests for special shipping dates if possible.

GUARANTEE

GUARANTEE — All Iris true to name, free from disease and guaranteed to live and grow. Our Iris are replanted each year—thereby assuring you of healthy, husky rhizomes.

WHOLESALE

WHOLESALE prices quoted to authorized dealers and garden clubs where the order is large enough for us to do so. Send us a list of varieties and amount wanted. We will quote special prices.
